West Boggs Lake

Indiana
Mon Nov 16 – Wed Nov 18, 2026 · Central Time · Largemouth

BITE ODDS · THIS CAST

Strong odds

9/10

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
+ Mostly stable	+ No lightning	+ 5–10 mph usable ripple	+ Clear / sunny (~0%)	+ Fall transition	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **52–59°F**, lows **31–41°F**, rain chance up to **~0%**. Story is light and bait position — dawn and last light carry the window.

THREE-DAY WEATHER

MONDAY NOV 16

52° F high

LOW	31°F
SKY	Areas Of Fog then Mostly Sunny
WIND	SW 0–5 mph
RAIN	~0%
SUN	—

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

TUESDAY NOV 17

55° F high

LOW	34°F
SKY	Sunny
WIND	S 0–5 mph
RAIN	~0%
SUN	—

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

WEDNESDAY NOV 18

59° F high

LOW	41°F
SKY	Sunny
WIND	S 5–10 mph
RAIN	~0%
SUN	—

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

Window: Mon–Wed · Air: SW → S · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (first light CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~56°F — statewide median of 23 lake estimates from the observed air record (NOAA ACIS) — no coordinates on file for this lake; no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

Pressure at West Boggs Park should stay lighter than a weekend, but the public ramp corridor still draws after-work rods. If the first shoreline stretch is occupied, slide to the next open park bank or a short kayak hop.

ALSO BITING

Bluegill and crappie mix on the same West Boggs timber and ramp shade you are fishing for largemouth — keep a light jig ready as a bonus cast, then return to the bass plan on the prime low-light windows.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

WATER BOARD — LAKE CHEAT SHEET

FIXED Natural / small-impoundment water — no generation table. Check access rules and level notes with the managing agency before you go.

ITEM	NOTE	SOURCE
Permit / regs	Indiana DNR regulation summary — confirm the current card.	

ACCESS — BANK / KAYAK / BOAT

BANK

Start on the posted shoreline at the West Boggs Park public ramp (Daviess County), then fan out along walk-in park banks beside the concrete ramp and any open public shoreline you can reach without crossing private docks.

KAYAK

Launch from the West Boggs public concrete ramp and stay inside a short paddle of park shoreline. Pack a spinnerbait for covering water and a Texas-rig creature for midday shade. When the southeast breeze or the west-southwest wind chops the open water, refuse a long crossing and keep fishing protected park pockets.

BOAT

Run out from the West Boggs public concrete ramp (Daviess County) and keep the plan compact. Graph timber edges, ramp riprap, and the first break before you idle the whole basin. The calm north-northeast air makes spot-lock easy on secondary wood; work a jig or shaky head and keep a topwater ready if shad flick.

LURE BOX

TOP

One walking topwater for calm dawn shad.

MID

West Boggs' box should cover park timber and ramp riprap: a weightless stickbait. A spinnerbait or squarebill for the breeze.

BOTTOM

A compact flipping jig. A Texas-rig creature. A shaky head or drop-shot for clear midday water.
