Kentucky Lake: KY Shore Callout (TN Peer Writes Full Cast)

Kentucky Lake · Fri Oct 2 – Sun Oct 4, 2026 · KY hub pin kept · times in **CT**

Fri ~84° → Sun ~75° (NWS LMK)

Fri–Sun window · CT

Heavy Traffic: none named Fri–Sun · expect weekend recreational pressure

Friday's showers and thunderstorms near 84°F give way to Saturday near 72°F (chance showers and thunderstorms then partly sunny) and Sunday near 75°F (chance rain showers) — fish the windows between weather, lean dawn on cover, and plan for weekend recreational pressure.

● KY SHORE — WHAT TO KNOW

KY-side anglers: use KY public ramps and LBL KY-shore day-use access where posted. Sister-pool to Barkley — canal traffic and recreational stacks still matter midweek. For the full Mon–Wed forecast, generation notes, and lure plan, open the TN Kentucky Lake Cast.

Full midweek outlook, dam boards, lure box, and E0 detail live in the TN product:

</home/box/agent-data/tn-bass/casts/2026-09-28-monday/kentucky-lake.html>

● HEAVY TRAFFIC

No separate KY trail event pulled for this shared water Mon–Wed. Defer crowd notes to the TN full Cast.
