

FRESHWATER CAST · MONDAY **CAST** · LOUISIANA · SHARED WATER

Toledo Bend: LA Shore Callout (TX Peer Writes Full Cast)

Toledo Bend Reservoir · Fri Oct 2 – Sun Oct 4, 2026 · LA hub pin kept · times in **CT**

Fri ~92° → Sun ~81° (NWS LCH)

Fri–Sun window · CT

Heavy Traffic: none named Fri–Sun · expect weekend recreational pressure

Friday's patchy fog then chance showers and thunderstorms near 92°F give way to Saturday near 86°F (mostly cloudy then chance showers and thunderstorms) and Sunday near 81°F (rain showers likely) — fish the windows between weather, lean down on cover, and plan for weekend recreational pressure.

● LA SHORE — WHAT TO KNOW

LA-side anglers: use LA public ramps and SRA / LDAF day-use access along the Many / Zwolle / Pendleton corridor where posted. Cypress / grass / dock lanes on the LA shore still matter midweek under the shared heat pattern. For the full Mon–Wed forecast, generation notes, and lure plan, open the TX Toledo Bend Cast.

Full midweek outlook, dam boards, lure box, and E0 detail live in the TX product:

</home/box/agent-data/tx-bass/casts/2026-09-28-monday/toledo-bend.html>

● HEAVY TRAFFIC

No separate LA trail event pulled for this shared water Mon–Wed. Defer crowd notes to the TX full Cast.
