Little Sebago Lake: Cool Nights, Fall Rock Bite & a Clear Midweek

Maine
Mon Nov 16 – Wed Nov 18, 2026 · Eastern Time · Smallmouth

BITE ODDS · THIS CAST

Strong odds

8/10

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
~ 11°F swing	+ No lightning	+ 5–5 mph usable ripple	+ Clear / sunny (~1%)	+ Fall transition	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **48–59°F**, lows **23–32°F**, rain chance up to **~1%**. Story is light and bait position — dawn and last light carry the window.

THREE-DAY WEATHER

MONDAY NOV 16

48° F high

LOW	23°F
SKY	Sunny
WIND	NW 0–5 mph
RAIN	~1%
SUN	6:37 AM / 4:15 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

TUESDAY NOV 17

53° F high

LOW	30°F
SKY	Sunny
WIND	W 0–5 mph
RAIN	~0%
SUN	6:39 AM / 4:14 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

WEDNESDAY NOV 18

59° F high

LOW	32°F
SKY	Sunny
WIND	W 0–5 mph
RAIN	~0%
SUN	6:40 AM / 4:14 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

Window: Mon–Wed · Air: NW → W · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:37 AM EST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Smallmouth plan: Go subsurface and a notch slower: edges of drop-offs, rocky points and bluff ends between the fall flats and the 20-40 ft winter depth; jerkbait with pauses, small jig or hula grub on the bottom, blade bait ripped off the bottom on points.**

BIOLOGY

BASS STAGE

Smallmouth are in the late fall transition — water in the low-to-mid 50s, so they are staging on drop-off edges, points and bends between their summer spots and the deep wintering holes.

Basis: estimated water ~51°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day

NATURAL FORAGE

Yellow perch and crayfish lead the menu, with shiners along the drop-offs. Match perch colors early, and brown or green pumpkin on bottom baits.

ALSO BITING

Largemouth · pickerel. Largemouth and chain pickerel still hit along weedy coves and pads.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

response); no water-temperature gauge on the lake; air record trending falling

DAM & WATER — CONFIRM BEFORE YOU LAUNCH

FIXED Dam-controlled water. No shared generation/level feed this cycle — check the agency page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Confirm	Maine Inland Fisheries and Wildlife	maine.gov
Clarity	Color match: Perch, crayfish brown, and green pumpkin in clear water.	

ACCESS — BANK / KAYAK / BOAT

BANK

Bank access on Little Sebago Lake is mostly at the public launch and any posted shoreline next to it. Arrive early, park clear of the trailer lane, and fish the nearest rocky edge or riprap where it is posted open. At first light, cast a small walking bait or a tube along that edge.

KAYAK

Launch at the public ramp on Little Sebago Lake and stay close to shore on the first paddle. Work the nearest points, boulder edges, and the first drop-off with a tube, a Ned rig, or a small swimbait, and move only as far as you can still see the ramp in a rising breeze.

BOAT

Launch at the public trailer ramp on Little Sebago Lake and clear the dock quickly so the next trailer can launch. From late morning to midafternoon after cold nights, fish rocky points and the first deep break with a tube, a jerkbait, or a drop-shot, and graph for bait before you make a long move.

LURE BOX

TOP

Walking bait over rocky points on calm mornings. Small popper along shoreline rock late day. Wake bait across shallow shoals when the wind lies down.

MID

Suspending jerkbait (perch or ghost) on points. Small swimbait counted down along drop-offs. Lipless crankbait on windblown rock when safe.

BOTTOM

Tube (green pumpkin or brown) dragged on rock. Drop-shot with a small minnow or worm. Ned rig or football jig near deep boulders.
