

FRESHWATER CAST · MONDAY CAST

Canyon Ferry Lake: Cool Dawns, Local Wind & Walleye First Light

Missouri River · Shannon Recreation Area · Friday Sep 28 – Sunday Sep 30, 2026 · bank / kayak / boat · times MT

Highs ~71° Mon → ~73° Tue → ~69° Wed (NWS TFX)

Primary: walleye · soft recreational pressure

E0 stations near this water · no prices

No named trail event pulled for Oct 2–4

Early October on Canyon Ferry Lake — cool dawn windows, quiet weather, and a Fri–Sun bite that rewards first light before weekend traffic builds.

● MIDWEEK OUTLOOK

NWS band pull (middle / Canyon Ferry representative) — applied to Canyon Ferry Lake keeps a **quiet early-October pattern** for this Friday **Cast** window (Fri–Sun) at Canyon Ferry Lake. **Friday** ~76°F / ~46°F, mostly sunny, wind S 7 mph. **Saturday** ~72°F / ~43°F, mostly sunny, wind SE 2 mph. **Sunday** ~78°F / ~49°F, sunny, wind SE 7 mph. Storm chances stay **near zero**. Reader clocks below are **MT** (water-local).

For walleye: lean **first light through mid-morning** on windward points, creek arms, and ramp-adjacent structure before afternoon warmth or breeze rearranges the bite. Weekend recreational pressure usually runs heavier than midweek — **no named B.A.S.S. / FLW / ABA trail event pulled** for this water on Oct 2–4.

FRIDAY OCT 2

~76°F

Low ~46° · ~0% storms · S 7 mph

Mostly Sunny — fish the cool dawn window first

Sunrise **7:15 AM** · Sunset **6:38 PM** MT

Best bite: first light–mid-morning on points and creek mouths

SATURDAY OCT 3

~72°F

Low ~43° · ~0% storms · SE 2 mph

Mostly Sunny; use any breeze for windward presentations

Sunrise **7:16 AM** · Sunset **6:36 PM** MT

Best bite: dawn shallow; mid-day slide deeper if the sun climbs hard

SUNDAY OCT 4

~78°F

Low ~49° · ~0% storms · SE 7 mph

Sunny — another clean fall day; expect more weekend traffic

Sunrise **7:17 AM** · Sunset **6:34 PM** MT

Best bite: first light again before the Sunday crowd piles on

WINDOW NOTE

Fri–Sun only

Next Cast cycle covers Mon onward

Monday trend: watch the local NWS grid for cool-down or wind shift

No storm train flagged for this corridor at pull

Clarity unconfirmed; protected arms often fish clearer after calm nights

● DAM / LEVEL CHEAT SHEET

Canyon Ferry Dam (USBR) on the Missouri forms Canyon Ferry Lake. At this Friday morning pull, a clean public live elevation/release table was thin in text form — treat pool and outflow as **confirm-before-you-go** on USBR / BOR recreation notices, and fish wind plus forage on the main lake. Schedules **can change without notice**. Soft level → bite notes only.

NODE	PULL SNAPSHOT	OPS SIGNAL	BITE CONTEXT
Canyon Ferry Lake USBR · Missouri River	Live elev/cfs thin on text pull	Confirm USBR before midday plan	Big-water wind and points locate walleye
Shannon Recreation Area (home pin) USBR day-use dual-ramp	Helena-side primary access	Confirm ramp on-site	Dawn Shannon banks and nearby points
Missouri main pool Wind = afternoon story	Clarity unconfirmed	Soft level notes only	Windward breaks once chop builds; reef early if whitecaps stack

Honest thin board: Live elevation and hourly release were thin on the public text pull. Confirm the latest agency notices before you go. Dam restricted zones are off-limits.

SHANNON FRI-SUN

Dawn points; mid-day windward breaks

BIG-WATER SAFETY

Reef early if afternoon whitecaps stack

● HOW TO FISH IT

BANK

Shannon Recreation Area shoreline and legal public banks near the dual-ramp are the Helena-side bank plays. Dawn jig along rock and gravel transitions while the Missouri air is still cool, then slide to any deeper drop you can reach from shore once boat wake and sun climb. Give trailered traffic room at both lanes, watch slick rock, and keep casts clear of day-use swimmers when the park wakes up. An early weekday start still buys the quietest Shannon water.

KAYAK

Stay near Shannon and protected pockets when the main lake breeze climbs — Canyon Ferry is big water. Launch at the day-use ramps, work eight-to-fourteen-foot transitions at first light, and skip long open-lake crossings under building whitecaps. Wear a PFD, stay visible to trailered boats, and reef early if the afternoon chop turns ugly. A kayak is perfect for quiet Shannon banks boats blast past at plane speed.

BOAT

First light on points and breaks off Shannon, then windward structure once chop builds. Graph bait before you settle; idle in no-wake; watch unmarked rock and shoals. Reef early if afternoon whitecaps stack — big-water pride is a poor substitute for a safe trailer. Keep a Shannon-pocket backup so a weather turn still ends with lines in the water. If bait marks rise on a windward break, stay on that contour for a full pass before you jump miles down the lake. Shannon remains the honest home base when weather turns — finish there rather than stretching a risky run.

● LURE BOX**TOP**

Walking bait / small spook — bone or chrome on calm dawn pockets

#5–#7 Rapala — silver/black or firetiger along points before sun clears

Skip topwater once chop or stain builds

MID

Jigging Rap / blade — glow, perch, or firetiger on 10–18 ft breaks

Shad crank — chartreuse/white when water stains

Spinnerbait — white/chartreuse on windward weed edges

BOTTOM

1/4–3/8 oz jig + soft plastic — paddle tail in smoke, chartreuse, or black/blue

Crawler harness / bottom bouncer — when breeze puts a roll on

Drop-shot — clearer pockets at first light

● WALLEYE LIFE STAGE

Cooling nights pull Canyon Ferry walleye shallow at dawn, then mid-depth. Secondary perch and

lake trout deeper are secondary options if the shallow window dies.

● NATURAL FORAGE

Most-likely menu: **perch**, **cisco leftovers** in deeper breaks, and **shiners** in pockets. Hatch reports are thin. Match what you mark. If you are not marking bait after two honest moves, change water — a new point or creek mouth — before you empty the box changing colors.

● ALSO HOT / ALSO IN SEASON

- **Yellow perch** — points with small jigs
- **Rainbow trout** — cooler breaks with spoons — secondary
- **Northern pike** — weed pockets

● HEAVY TRAFFIC

Soft recreational pressure for Fri–Sun. **No named national or regional trail event** was pulled for Canyon Ferry Lake on Oct 2–4 at this gather. Expect lighter weekday traffic at Shannon Recreation Area than a sunny weekend, with a bump if midweek sun draws locals. Ramp etiquette still matters — idle near beaches and give bank anglers room. Local after-work traffic can bump Saturday or Sunday if the sun wins the afternoon, so an early trailer still buys the quietest water.

● ETHANOL-FREE FUEL · PURE-GAS.ORG E0 · THIS WATER

Closest Pure-Gas.org ethanol-free listings near Canyon Ferry Lake (stations only — verify grade at the pump; listings can change):

- **South's Country Store** — South's Country Store, 3105 York Rd, Helena, MT (~10.7 mi) · Ethanol-free CENEX 91; GPS located from address

- **Maverik #731** — Maverik #731, 3196 Colonial Dr, Helena, MT (~14.0 mi) · Ethanol-free MAVERIK 87; GPS Google Earth Satellite GPS
- **Costco** — Costco, 2195 E Custer Ave, Helena, MT (~14.3 mi) · Ethanol-free COSTCO 91; GPS entered by Jonathan Lathbury

No pump prices in this **Cast**. Confirm ethanol-free grade at the pump if that matters for your motor.

If wind or showers rearrange the day, shorten the run and fish the first clean point or creek mouth you can reach safely from Shannon Recreation Area — a tight dawn window still beats a long midday grind on stained water.

● DAY-BY-DAY FISHING NOTES

Friday favors the cleanest dawn window of the three if overnight showers stay light — be on the first point or creek mouth you trust within thirty minutes of sunrise, then decide whether to slide deeper or stay shallow based on bait marks, not the clock alone. If the afternoon breeze stands up, treat windward breaks as a feature: shorten casts, keep the bait in the strike zone, and move along the break instead of camping on one empty cast. Saturday and Sunday often share a pattern in early fall — cooler air helps the morning, then sun or showers compress the shallow bite after late morning. When radar shows cells, fish the edges and the thirty quiet minutes after a cell passes rather than forcing a long open-water run under a dark shelf. Keep a bank or kayak backup close to the ramp so a washed-out main-lake plan still puts a line in the water.

Presentation speed should follow water temperature and wind more than habit. Cooler dawn water usually wants a slower jig or harness; once chop dirties the surface or bait marks rise, speed up just enough to stay in contact. If you are marking bait with no followers, change depth before you change lure color. If you are marking nothing, move — early-fall fish on these reservoirs reward a mobile first hour more than a stubborn second hour on the same empty bank.

● ACCESS AND SAFETY

Trailer etiquette matters even on quiet weekdays: stage off the ramp lane, launch efficiently, and idle out of the no-wake pocket before you plane off. Bank anglers get first courtesy on shared riprap. Kayaks should stay visible and avoid the main takeoff lane when boats are loading. Lightning ends the argument — get off the water and wait. Submerged timber, unmarked rock, and changing ramp exposure with pool are the usual taxes on these waters; idle until you know the bottom. Dam restricted zones, boom lines, and posted closures stay off-limits no matter how good the seam looks from outside the markers.

Pack layers for cool dawns and a rain shell for midweek shower chances. Bring a headlamp for pre-dawn rigging, a spare trailer fuse, and enough fuel to cover a weather-shortened day without gambling on a long run home. If afternoon whitecaps stack on the main pool, reef early and finish the day in a protected arm or from the bank rather than proving a point in open water.

● LOOKING AHEAD

Cool mornings look locked in through early October on the local NWS grid, which usually helps shallow dawn windows and stretches the first-light bite a little later into the morning as nights keep falling. Watch how midweek shower trains rearrange water color — a stain line after a cell can concentrate bait on the first clean point outside a creek mouth for a short window. Keep confirming agency pool and ramp notices as September closes; a quiet change in pool can move the best break a cast or two deeper without any drama on social media. Next **Cast** cycle covers the Thursday–Sunday stretch, when another cool front or a quieter sky can rewrite which bank you start on.

If you only get one morning this window, take Friday's first light unless radar is ugly — then take the first clean dawn after the cells pass. A short, honest trip that puts bait and fish on the graph beats a long midday grind on empty banks. Carry two confidence presentations (one slow bottom, one mid-column) and let the marks choose which one earns the next hour.
