● HOW TO FISH IT — BANK / KAYAK / BOAT

BANK

Watertown / Lake Kampeska
public access: dawn/dusk
walleye and perch under
showery skies.

Urban-access glacial lake —
weekday pressure softer; still
arrive early for prime piers.

No gen board — weather/
forage only.

Wind can dirty shallow flats
after storms.

Cooler midweek expands
morning windows.

Verify city/SD GFP access
rules live.

KAYAK

Weed edges and gravel with
small jigs; PFD for wind.

First light—~9 AM CT; bail
before midweek cells.

Perch advertise forage;
walleye follow on edges.

No dam story — glacial only.

Soft recreational midweek.

Watch boat traffic near
popular Watertown launches
evenings.

BOAT

Small jigs for perch clouds;
walleye rod on adjacent
breaks.

Launch early; urban lake still
gets after-work spikes Wed–
Thu.

Wind lanes; evening edges.

Clarity unconfirmed — natural
first.

Soft recreational Mon–Thu; no
named trail event.

Species-honest walleye/perch
— not bass-by-default.

● LURE BOX — TOP / MID / BOTTOM

TOP

Small buzz/walker only if bait is breaking — otherwise skip topwater.

Long-bomb crank only on rare calm windows.

Whites/SMB may crash bait — keep one reaction rod ready.

MID

Shad-profile cranks and swimbaits along windward breaks.

Spinner harness + crawler where effective.

Hair jig or soft plastic on rock for SMB bycatch.

BOTTOM

Jig + minnow/plastic on points and river channel edges.

Live-bait rig off the break as nights cool.

Blade bait / hair jig when wind stands fish up.

Stain/clear: Clarity unconfirmed at pull — start natural/chrome and darken only if you see stain.

● LIFE STAGE + WHAT'S ON THE MENU

****Late summer → early fall transition.**** Cooler nights pulling ****walleye**** toward breaks and bait schools. Residual mild afternoons Wednesday–Thursday.

****What's on the menu**** (seasonal, not a dated hatch): YOY shad/minnows on mainstem; perch and invertebrates on glacial lakes. Match profile — do not invent a hatch date.
