## ● LURE BOX

### TOP

Walking topwater (bone/chrome/shad) — points & grass edges at dawn

Buzzbait (black/chartreuse) — low-light banks

Popper / pencil — calm pockets

### MID

Spinnerbait or bladed jig (white/chartreuse) — wind-blown banks

Swim jig / fluke — isolated cover

Crankbait (shad) — points and ledges

### BOTTOM

Texas-rig creature (green pumpkin) — timber & grass roots

Football / flipping jig — rock and docks

Drop-shot or shaky head — clear deep edges

**Stain/clear:** Lighter/shad profiles in clearer water; darker profiles after storms. FLAG if no clarity report.

## ● PRIMARY LIFE STAGE + WHAT'S ON THE MENU

**Primary species this week:** Largemouth bass — Dallas-east LMB; crappie/catfish secondary

Late September early-fall transition. Warm days, cooling nights. Expect shallow low-light bites and deeper midday shade / main-lake structure depending on wind and stain.

**What's on the menu:** Most likely seasonal forage: threadfin/gizzard shad on points and wind lanes, bluegill/sunfish in cover, crawfish on rock/timber. No dated hatch pulled — seasonal likelihood only.

## ● ALSO ON THIS WATER

Dallas-east LMB; crappie/catfish secondary Keep secondaries short — no laundry list.

## ● LOOKING AHEAD

Re-check major trail calendars and lake tournament boards for the next 1–3 weeks before the Friday Cast.
