Best bite: low light for Largemouth bass; re-check wind/storm cells midday.

TUESDAY SEP 22

High ~94°F · Sunny then Chance Showers And Thunderstorms · precip ~27% · wind ESE 2 to 7 mph

Best bite: low light for Largemouth bass; re-check wind/storm cells midday.

WEDNESDAY SEP 23

High ~92°F · Mostly Sunny then Chance Showers And Thunderstorms · precip ~33% · wind E 2 to 7 mph

Best bite: low light for Largemouth bass; re-check wind/storm cells midday.

THURSDAY SEP 24

High ~92°F · Chance Showers And Thunderstorms · precip ~34% · wind ENE 0 to 6 mph

Best bite: low light for Largemouth bass; re-check wind/storm cells midday.

● DAM & CURRENT / LEVEL CHEAT SHEET

Agency story: IBWC / TPWD. Access hub: Falcon State Park.

Live pool/generation numbers were **not fully verified** in this evening gather for every product — **FLAG**. Re-check agency boards (USACE / LCRA / TRA / SJRA / USBR / TPWD / UDWR as applicable) before launch. Say **Generator schedule** when generation applies; do not invent cfs or pool elev.

ITEM	POSTED	ANGLER NOTE
Pool / flow	FLAG — re-check tonight's board	Pin 26.5872, -99.1525
Generator schedule	Re-check if dammed	Current seams move bait

● HOW TO FISH IT

BANK

Fish legal public shore near Falcon State Park. Dawn and dusk for Largemouth bass. Midday: shade, bridges, deeper edges. Confirm access — no trespass.

KAYAK

Quiet approach to pockets boats skip. Launch early; sit out lightning. Soft weekday traffic still means watch main ramps midday.

BOAT

Start from Falcon State Park. Idle carefully; fish wind-blown structure and bait. Re-check Generator schedule / pool before river below dams.

● ETHANOL-FREE FUEL NEAR THIS WATER

Source: [Pure-Gas.org](https://pure-gas.org) public E0 listings · gather **Sun Sep 20, 2026 · evening CT**

Current prices — may change; verify at the pump. Live pump prices were **not confirmed** in this evening gather for every station — do not invent prices. Call ahead.

- Search [Pure-Gas.org](https://pure-gas.org) near **Falcon Reservoir** for the closest 2–4 E0 stations to this water before launch.
- Prefer E0/premium grade matching the listing when known.
- Distances are pin-relative estimates only.

Listed E0 identity from [Pure-Gas.org](https://pure-gas.org) (crowdsourced). Prices change — verify at the pump. FLAG: thin price snapshot this cycle.

● LURE BOX

TOP

Walking topwater (bone/chrome/shad) — points & grass edges at dawn

Buzzbait (black/chartreuse) — low-light banks

Popper / pencil — calm pockets

MID

Spinnerbait or bladed jig (white/chartreuse) — wind-blown banks

Swim jig / fluke — isolated cover

Crankbait (shad) — points and ledges

BOTTOM

Texas-rig creature (green pumpkin) — timber & grass roots

Football / flipping jig — rock and docks

Drop-shot or shaky head — clear deep edges

Stain/clear: Lighter/shad profiles in clearer water; darker profiles after storms. FLAG if no clarity report.

● PRIMARY LIFE STAGE + WHAT'S ON THE MENU

Primary species this week: Largemouth bass — South TX LMB; catfish secondary; Mexico shoreline out of scope

Late September early-fall transition. Warm days, cooling nights. Expect shallow low-light bites and deeper midday shade / main-lake structure depending on wind and stain.

What's on the menu: Most likely seasonal forage: threadfin/gizzard shad on points and wind lanes, bluegill/sunfish in cover, crawfish on rock/timber. No dated hatch pulled — seasonal likelihood only.

● ALSO ON THIS WATER

South TX LMB; catfish secondary; Mexico shoreline out of scope Keep secondaries short — no laundry list.

● LOOKING AHEAD

Re-check major trail calendars and lake tournament boards for the next 1–3 weeks before the Friday Cast.
